                                                 PREDICTOR

UNIVERSITY ADMIT ELIGIBILITY PREDICTOR

OBJECTIVE:

College admission predictor is a boon to many students. This helps the student not only to help in filling out the application forms but also give the students an idea about their future college by calculating their cut off.

When students come from rural places, they find it hard to go along with the formal procedures. So, this application helps them a lot and eases out their fear.

Whatever may be their scores, this application helps to find the best colleges. Hence, our proposed computer aided system will help the students to get the list of all colleges in which they could get the admission at the click of a button.

The students only have to enter their marks of GRE,TOFFEL,UNIVERSITY RANK ,etc. With this application, the students can very easily obtain the list of colleges even branch wise and course wise. This will not only make the admission process easy but also minimizes stress for students. The main objective of our system is to make the right choice of colleges.
